

## Reporting Scientist

Hello! We're delighted you've taken an interest in our role for a new Reporting Scientist.

This is a fantastic opportunity if you are striving for progression and willing to bring your skills, talent and abilities to our thriving company.

We believe we are the best in our industry - as do our clients from their feedback - so we tend to attract like-minded people who love what they do. We are the innovators - our founders brought hair testing to the UK nearly 30 years ago – so we are always looking to recruit passionate, happy, professional people who'll fit right in with our small team.

### What's in it for you?

- Tailored career progression and bespoke training
- Generous 25-day holiday entitlement (not including Bank Holidays)
- Great pay plus benefits
- A 9am-5pm Monday – to Friday work week, with an hours' lunch. (sometimes we do work out-of-hours at conferences and events, but you'll be given plenty of notice).
- Up to six-month probation period – followed by a FT employment contract and enrolment onto contributory pension scheme (no consultancy or zero hours contracts)
- Free secure parking, walking distance to shops, on main bus routes
- Fun team activities organised by your colleagues to enhance the working day and support chosen charities.

### What we're looking for: (What you can bring to us?)

We are looking for someone who is time-served with superior communication skills and a great work ethic to join our team.

You will be primarily responsible for creating Expert Reports and Certificates of Analysis to support our valued clients. Your role will be varied, and you will be proficient in a Laboratory environment, and well versed in all pre and post analytical processes.

You will have experience of attending court and or be court-trained with a minimum of one year experience and court trained. You will be a competent individual with a good eye for detail and familiar with the requirements of the ISO 17025 Standard Quality system.

### Responsibilities and tasks checklist:

We hope this checklist will give you an indication of the tasks and responsibilities for this role:

- You carry out any administrative duties as far as is reasonable and commensurate with the role of Reporting Scientist.

- You develop a clear understanding of all aspects of the analytical role and the customer service element to the role to ensure high quality delivery.
- You are competent and confident with presenting your findings during court proceedings as required.
- Reports are prepared and made ready to our high-quality standards and timescales of delivery and in accordance with our SOP's and Quality standards
- You Issue Certificates of Analysis appropriately
- You invest in research for personal and professional betterment with regards to innovation and developments in hair drug and alcohol testing.
- You are responsible for your own health and safety and the health and safety of others.
- You maintain accountability for keeping training records up to date.

### **About Cansford Laboratories:**

Cansford Laboratories is a state-of-the-art hair and oral fluid drug and alcohol testing lab based in the UK. As we mentioned previously, our team pioneered hair testing nearly 30 years ago and today, we offer a modern, fast, class-leading service.

We're proud of the wealth, knowledge, commitment and passion that we hold, which is reflected in the employees you'll be working alongside.

We are a diverse, friendly team working in a modern laboratory. Plus, we have cake - lots of it, alongside regular office takeaways, free tea and coffee, full kitchen facilities, a fantastic TV and chill-out room plus use of our mini gym and other activities on site. We are also planning new social activities now the world is opening up following Covid-19.

### **Any Questions?**

If you have any questions about this role then we're here to help. Please contact us via live chat on our website here <https://www.cansfordlabs.co.uk> or email us [here](mailto:hr@cansfordlabs.co.uk) (hr@cansfordlabs.co.uk).

### **Interested?**
