

## Qualified and experienced Phlebotomist

Hello! We're delighted you've taken an interest in our role for a new Phlebotomist. We believe we are the best in our industry - as do our clients from their feedback - so we tend to attract like-minded people who love what they do. We are the innovators - our founders brought hair testing to the UK nearly 30 years ago – so we are always looking to recruit passionate, happy, professional people who'll fit right in with our small team.

### So, what are we looking for?

Initially we are looking to recruit part-time staff in the Portsmouth and Peterborough area. But if you are elsewhere in the UK, then we'd still urge you to apply. We are always looking for talented people – you may have been a trained NHS nurse or are looking to work around other commitments.

### What you'll be doing...

You'll be supporting Cansford laboratories by taking samples from clients such as blood and hair for them to be analysed for the presence of drugs and alcohol.

You must be a qualified and experienced Phlebotomist. Attention to detail, empathy and an understanding manner are essential qualities of this role. You will need access to a car, mobile phone, and computer.

### Responsibilities of the post:

To visit clients between office hours, to collect blood and/or hair samples for drug & alcohol analysis in accordance with strict procedures. Training will be provided.

### About our Sample Collectors – Collections Agents:

Our sample collectors find the role very rewarding with the advantage of being able to attend appointments around their own availability. The appointments take 20-30 minutes plus any traveling time to the client's premises or homes. The role will be like a 'zero hours contract basis' but you will be paid under PAYE. We pay approx. £45-£50 per appointment + mileage.

### About Cansford Laboratories:

Cansford Laboratories is a state-of-the-art hair and oral fluid drug and alcohol testing lab based in the UK. As we mentioned previously, our team pioneered hair testing nearly 30 years ago and today, we offer a modern, fast, class-leading service. We're a professional and friendly bunch, proud of the wealth of knowledge, commitment, and passion that we hold, which is reflected in the employees you'll be working with and supporting.

### Any Questions?

If you have any questions about this role then we're here to help. Please email Chris Bell, Sample Collections Manager at [chris@cansfordlabs.co.uk](mailto:chris@cansfordlabs.co.uk).

## **Interested and want to apply?**

Please send your CV and a covering letter for the attention of Chris Bell, Sample Collections Manager at [chris@cansfordlabs.co.uk](mailto:chris@cansfordlabs.co.uk). If successful, you will be contacted to attend an interview within the coming month. This could maybe be via zoom, teams or in person – TBC between ourselves. The closing date for this role is 5pm Sunday July 31<sup>st</sup> 2022.

**No agency enquiries please.**
